Requirements for turning over pattern development

- Complete technical package or exact sample to copy
- Tech pack must include detailed flat sketch with front and back view, clearly showing all style detail, including call outs for topstitching and placement of contrast fabrications, hem or band widths, label placements, etc.
- Bill of materials listing garment components, including size of trims (button lines, zipper type and size, premade trim widths, etc). Special directions For fabric direction or matching should be clearly indicated if necessary. (crossgrain, border print, napped fabric, etc)
- Target specs for finished garment
- Sample size
- Size range
- Pattern reference number
- Season

**Tech Pack and flat sketching services available

**Construction consultation is available

Prototype sample service requirements

- Patterns must be created at Patternworks
- Customer to provide all fabric and trims, including interlinings, specialty threads such as silks, floss for swim, elastics, zippers, etc. Must include The dies necessary to set hardware such as snaps, shanks buttons and eyelets.
- Prototype cut sample ticket with bill of materials information and swatches Swatches should be placed on the ticket with face up.
- Clearly written technical sketch or exact garment to reference
- Remember to include all labeling necessary.

Digitizing requirements

- Hard pattern or paper tracing of pattern. For accuracy purposes, paper patterns must be sent rolled.
- Pattern pieces must be marked with grainlines and piece names.
- Standard patterncard information, listing all pattern pieces with fabric indication.

Please note: all pattern pieces are digitized EXACTLY as received. Checking or trueing patterns is a separate service, see price list, pattern revisions.

Grading requirements

- Sample size
- Size range
- Grade increments or spec sheet

**Grade rule set up consultation is available

Marker requirements (cut ticket to indicate)

- If single or ratio marker
- Number of units/cut sizes
- Cuttable fabric widths for ALL fabric components
- Fabric direction (1-way, 2-way, matching, engineered)

**Marker consultation is available
